## INTRODUCTION

The daily correspondence of the provincial and district officers of the East Africa Protectorate and Kenya Colony were microfilmed during the 1960s as part of a cooperative project between the Kenya National Archives and Syracuse University. Syracuse, with a grant from the National Science Foundation, helped to collect the documents from the provincial and district offices and then to organize and microfilm them. The documents and the microfilm negatives were retained by the Archives, while Syracuse received a positive copy. Subsequently another positive copy was obtained by the Cooperative Africana Microform Project (CAMP) of the Center for Research Libraries.

This guide was prepared at Syracuse University during 1982-84 under a grant from the National Endowment for the Humanities. It is an index to the following collections of daily correspondence:

Coast Province, 2nd series, 1894-1965:	150 reels
Central Province, 1888-1964:	71 reels (1-40, 61-91)
Rift Valley Province, 1894-1959:	61 reels
Northeastern Province, 1909-63:	46 reels

The daily correspondence of these four provinces appears now to have been photographed in its entirety. Whereas all the correspondence for the Central, Rift Valley, and Northeastern Provinces is described in this guide, only the second series of the documents for the Coast Province is included. The first series of 220 reels was microfilmed earlier and at the time was thought to include all the extant documents. Later another collection of the Coast records was discovered, and it has been designated the second series. A guide to the first series was compiled earlier at Syracuse University:

Soff, Harvey. A Guide to the Coast Province Microfilm Collection of the Kenya National Archives: Kenya Sevidie (Coast) Provinces, Correspondence and Reports, 1891-1962. Syracuse: Syracuse University Program of Eastern African Studies, 1971.

The daily correspondence of the provincial and district officers is the most elementary and detailed record of the colonial administration. It consists of letters, telegrams, circulars, reports, memoranda, and copies of legislation that were circulated among the colonial officials or

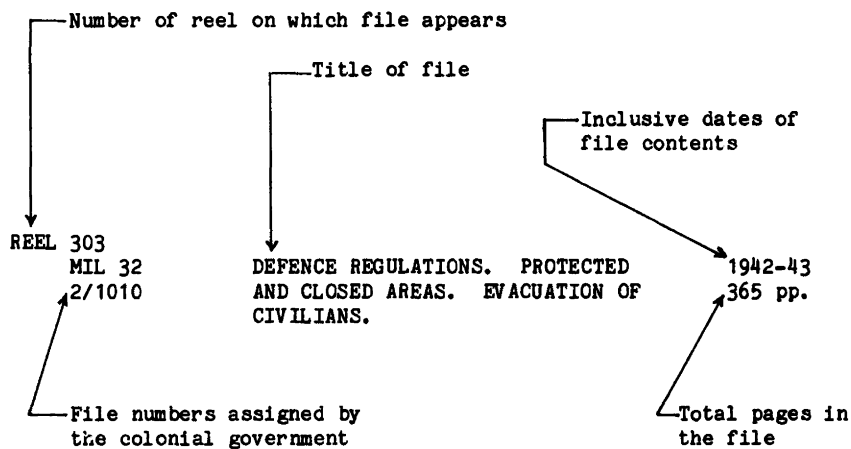

were sent to them by Europeans, Indians, and Africans outside the administration. These records were filed in manila folders, each with a categorical title, and kept in the filing cabinets in the provincial and district office.

From these records the provincial and district officers compiled their annual and quarterly reports, handing over reports, intelligence reports, and political record books. These more formal reports were also not intended for publication, but for use by the higher administration. They constitute a useful supplement to the daily correspondence for any province or district. They have been indexed for all Kenya by Syracuse University in a single volume known as the "green guide":

Gregory, Robert G., Robert M. Maxon, and Leon P. Spencer. A Guide to the Kenya National Archives: to the Microfilms of the Provincial and District Annual Reports, Record Books, and Handing Over-Reports; Miscellaneous Correspondence; and Intelligence Reports. Syracuse: Syracuse University Program of Eastern African Studies, 1968.

In the present guide to the daily correspondence there is an apparent discrepancy. The seventy-one reels for Central Province are numbered not 1-71, but 1-40 and 61-91. The gap should not be interpreted as evidence of missing reels. It appears to have been the result of an error in numbering.

In this guide the files of correspondence appear as follows:

The microfilm reels of the daily correspondence may be viewed in the Syracuse University Library or borrowed through interlibrary loan from CAMP, Center for Research Libraries, 5721 S. Cottage Grove Avenue, Chicago, Illinois 60637.

At the request of the Kenya government, both Syracuse University and CAMP conform to the practice of the Kenya National Archives by denying access to any unpublished documents written within the last thirty years.

These microfilms are cataloged at Syracuse University as follows:

Coast Province	Film 4750
Central Province	Film 4751
Rift Valley Province	Film 4752
Northeastern Province	Film 4753

# MAXWELL SCHOOL

Founded in 1924, the Maxwell School of Citizenship and Public Affairs has been educating young men and women for public service and for academic and research careers for over 50 years. Today the Maxwell School comprises a unique combination of disciplinary departments (Anthropology, Geography, History, Political Science, Public Administration, Social and Political Psychology, Sociology), degree granting programs (International Relations, Public Affairs, Social Science, Development Planning) and professional, research oriented non-degree programs (Foreign and Comparative Studies, Health Studies, Metropolitan Studies, and Mid-Career Training). Of the School's candidates for advanced degrees about half are in the traditional social science departments and the other half in inter-disciplinary programs.
