DESCRIPTION

For Syracuse University, NORDP has served as the impetus for the development of a unique model of research development support: the combined centralized and distributed "RD team." Our 13 person operation consists of 6.5 research development professionals in 6 schools and colleges, and 6.5* RD professionals in central offices. Rather than hierarchical, this group operates in a team-based fashion, with regular, informal meetings for information sharing, planning and co-hosting of events, and collaborative pursuit of other RD activities.
*Note: many team members serve other roles in addition to RD within their school or college.

ACTIVITIES

Centrally-led, School- & College-Supported

- Development/maintenance of researcher profiles (Pure)
- Limited submission management & intramural grant facilitation
- RD policy development and round-tabling of potential impacts, roll-outs, support
- Funding opportunity & grantsmanship training for faculty, staff & students

School- & College-led & Centrally Supported, or Mutually Supported

- CAREER training and other funder-specific training;
- Funding opportunity identification & circulation
- Proposal development
- Networking activities to pair researchers w/in and external to SU
- Funder visits, research talks, and professional development activities

A Team Approach to RD
