SECTION IV:
MISCELLANEOUS CORRESPONDENCE

The eleven reels of Miscellaneous Correspondence (MC) include reports and circulars, as well as correspondence, on a wide variety of subjects. Complete subject files are on occasion reproduced, while other sections of Miscellaneous Correspondence contain materials similar to those found in Political Record Books. (For the nature of this type of document, see pp. 5-6, 211.)

Entries are arranged in the following manner: citations on the Kenya National Archives inserts appear as elsewhere in capitals; material not specifically cited between inserts is annotated below the insert citation. Documents pertaining to a particular subject are grouped, citing the correspondents and the inclusive dates. Isolated material, insufficient in terms of numbers to permit grouping but requiring separate citation, is not annotated with the KNA insert but is given its own entry. Secretariat circulars, when appearing in substantial numbers, will be grouped on an annual basis to avoid confusion, for these circulars in later years were organised in that manner. All subjects in these circulars will be annotated.

References to District Commissioners and Provincial Commissioners, etc., indicate those officials stationed in the district or province cited on the KNA insert, unless otherwise noted. Since names and boundaries of districts, etc., varied throughout the colonial period, mention of the location of particular officials will follow that which was indicated on the particular correspondence. Names and titles are abbreviated after the initial citation.

In view of the nature of Miscellaneous Correspondence, a subject index has been compiled (see pp. 449). The usual entries are incorporated with other sections in the Index of Organizations and Personalities (see pp. 419).

Reel 97

MC / 1 BAR/11 BARINGO DISTRICT MISCELLANEOUS CORRESPONDENCE, 1901-1953. 122 pp.
