ARCHITECTS and ENGINEERS THEIR PROFESSIONAL RESPONSIBILITIES

By James Acret, J.D.,
member State Bar of California

This book was written for lawyers, engineers, architects and insurance claims departments. It is a complete work on the subjects of responsibilities, liabilities and malpractice of architects/engineers. It reviews the various insurance coverages available and recommends specific malpractice avoidance techniques for engineers and architects to adopt in their respective practices.

For the lawyer, there is a comprehensive review of the nationwide authorities on these subjects along with information on how to represent engineers and architects in malpractice cases.
