The Secrets of Art

John Bonner

In the past several issues of Syracuse Scholar, John Bonner, a graduate student in advertising design from England, has brightened our sometimes too serious pages with witty and irreverent cartoons. John graduates this semester, so we thought as a parting shot we'd reproduce his SECRETS OF ART. John describes them as "the antidote to those intensely intellectual guides who are paid to drag you 'round museums and talk total drivel." We'll miss you, John.

—The Editors

John Bonner was born in Colchester, England, and received his B.A. in graphic design at St. Martin's School of Art in London. He is finishing his M.F.A. in advertising design and cartooning at Syracuse University's College of Visual and Performing Arts.
